

Calculating Details

Door Width = Panel Width = (Opening Width - 1/4 or 5/16 (which ever is more convenient) / 2) + 1

Panel Height = Nominal Height - 3/16"

Door Height = Nominal Height - 3/8"

Track Height = Nominal Height - 3 1/8"

Track Cutting: Distance to 1st hole = ((Panel Width - 22)/2) + 1/8 - 1/2"

Overall Length = Opening Width - 1"
